

PLANAL VERTICAL

The ultimate modern statement for your room, **Planal** Vertical radiators provide a discrete, sophisticated new look and exciting, flexible way to make an impression while efficiently heating your room.

With the unique built in water diverter to maximise radiator circulation and efficiency, **Planal** Vertical radiators heat up much quicker than normal radiators.

Planal Vertical radiators are flat fronted so you can paint or decorate them to simply disappear against a wall or create a bold, modern statement in your favourite room.

- Every bright, white (RAL9016), Ultraheat radiator is individually supplied in strong protective packaging - everything is included in the pack so it is easy to assemble and fit. The wall mounting bracket system is strong yet allows easy removal for wall painting and wallpaper decoration,
- Factory fitted top grills and side panels (with exception of VPS model - as it comes without) with rounded corners smooth edges.
- High quality - stove enamel paint finish in white (RAL9016) heavy duty packaging including 1 pc of 1/2" chrome plug, 1pc of 1/2" chrome airvent each with rubber "O" rings and concealed brackets.

Ultraheat Vertical Planal radiators come in two types

VPS - Single Panel Vertical Planal (14mm deep)

VPH - Double Panel Vertical Planal (67mm deep)

Heights: 1200, 1400, 1600, 1800 & 2000mm

Lengths: 200, 300, 400, 500, 600 and 700mm

Recommended Valves

UDW850

Angle valve set for when pipes come off the wall

UDW851

Straight valve set for when pipes come off the floor

UDW860

Swivel valve set for both angle and straight installation

All Ultraheat valves listed above are manual valves, UDW107L - thermostatic liquid sensor needs to be ordered separately to make the valve thermostatically controllable.
