

# Flexiflush® pipe set for cistern 2" and 1"1/2

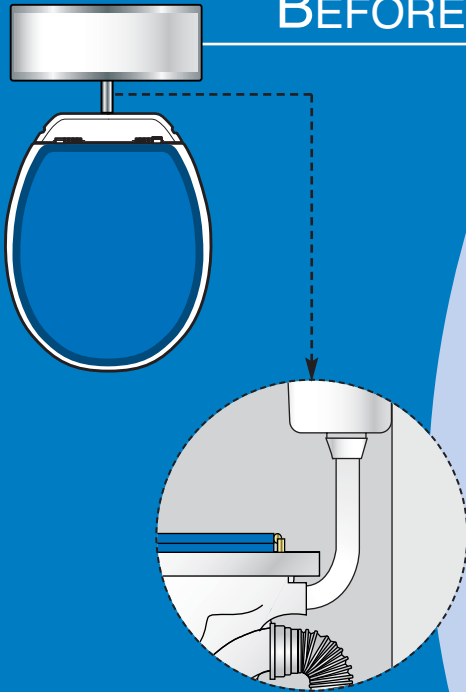

■ EASY

■ FLEXIBLE

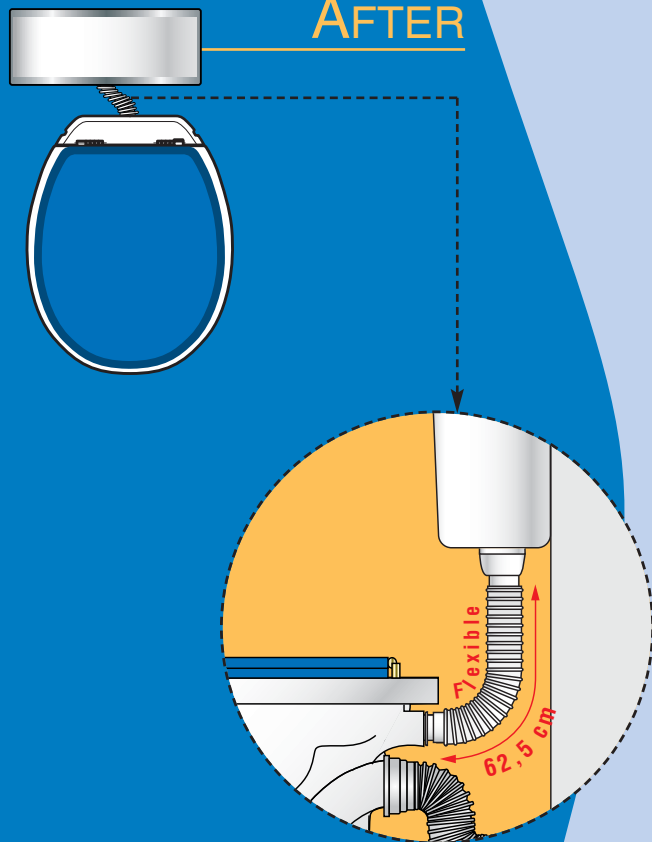

■ Ø 2"  
and Ø 1"1/2

## BEFORE

## AFTER

**Length of the tube :** 62.5cm, without the connection ends.

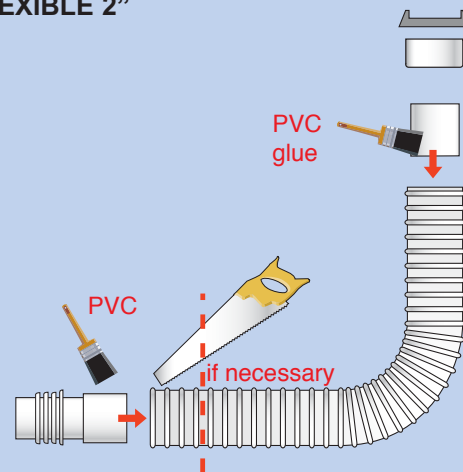

### Adaptable according to the cistern height :

Thanks to flexiflush® the cistern can be moved over when there is very little space (e.g. cloak rooms).

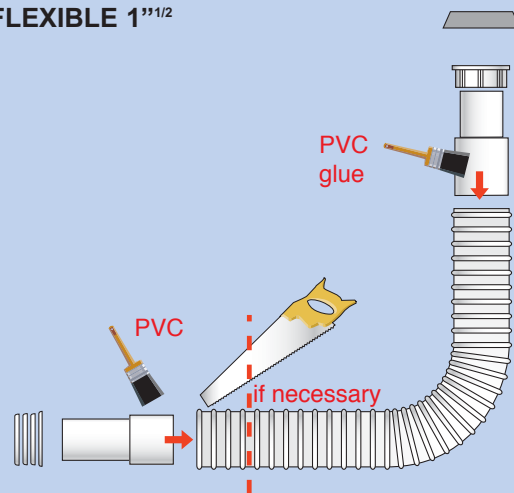

In back to wall furniture the flexiflush® pipe means that the cistern is easily accessible because it can be moved around without disconnecting it from the other elements.

**Easy and quick to install :** the ends just have to be glued. The flexiflush® pipe can be cut to the correct length. The tube is made of flexible PVC and smooth inside.

### FLEXIBLE 2"

### FLEXIBLE 1<sup>3/4</sup>"
